

Debating

Debating is a long established extra curricular activity in the school. It promotes team work, Confidence building and an awareness of current affairs amongst the pupils who participate. Students from all years get involved in the club and have various roles and responsibilities. Teams often consist of many members so that as many students as possible get to compete in competitions. This year students have been entered in the following competitions

- Concern debates
- Denny Schools debating competition

If a competition is being held in the school, a committee is set up to prepare the room and refreshments for after the competition. Some teams are progressing through the Denny debates competition. There has not been much success in the concern debates to date but this will be reviewed at the end of the year
